teaching tci with human patient simulators

TEACHING TCI WITH HUMAN PATIENT
The introduction of TCI to TIVA special focus may be added to the education of anesthesiologists in this chapter. An overview is given on how to use patient simulation for this purpose. The simulation setup consists of a full-scale patient simulator with the necessary anesthesia equipment.

April 20th, 2020 - The survey revealed that TIVA was performed in more than 50% of patients undergoing open thoracic or cardiac surgery, although this incidence differed depending on the operative procedure factors often indicated by anesthesiologists as reasons for hesitating to perform TIVA were 1) adjustment is easier with volatile anesthesia and 2) the anesthesiologist is more familiar with volatile anesthesia.

'TCI VS TIVA TIVA AND TCI
DR JIM HOYLE FRCA FFICM
CONSULTANT
MAY 30TH, 2020 - TCI VS TIVA
WHEN USING TIVA VIA TCI
SHORT ACTING OPIOIDS SUCH AS REMIFENTANIL ARE PREFERRED RECENTLY IT WAS SEEN THAT TIVA VIA A TCI BINING REMIFENTANIL AMP PROPOFOL EFFECTIVELY CONTROLLED INTRA OPERATIVE RESPONSES WHILE ALLOWING FOR RAPID EMERGENCE FROM ANESTHESIA IN ELECTIVE INPATIENT SURGERY 7
